

*Carl Rambo and Gary Butler, Executive Director*

Carl Rambo, a member of Boy Scout Troop #433, chartered by Deep Creek Church, created 5 display boards for the Military Heritage Museum as his Eagle Scout project. He worked with Innovative Metal Works in Punta Gorda, who donated their time and welding skills to his project. The display boards will be used for a rotating exhibit featuring a different theme each month. The Boy Scouts of America Eagle Scout project demonstrates leadership of others while performing a project for the benefit of their community. Completing an Eagle Project is a requirement for Scouts to attain the Eagle Scout rank.
